HOLISTIC IDENTITY MANAGEMENT
FOR SAFE, SECURE OPERATIONS

WISE provides security, human resource, and operations personnel with a unified view of all the identities that interact with its facilities on a daily basis. It turns routine data collection into actionable intelligence for corporate administrators and security personnel.

WISE enables Human Resource Professionals to:

☑ Securely capture and maintain personal information (PII)

☑ Assure completion of required employment and consent forms

☑ Maintain current training, fitness, and professional certifications

☑ Receive proactive alerts to help assure compliance

☑ Track detailed incident reports for investigative action

WISE enables Security Personnel to:

☑ Print, issue and manage individual ID cards

☑ Authenticate individuals and their skillsets prior to granting access to hazardous or secure environments

☑ Gain better control over non-employee access

☑ Benefit from advanced exception monitoring and reporting

WISE helps assure that all security personnel, employees, vendors, contractors, and visitors have been positively identified, and adequately screened and trained to a level deemed necessary by risk managers.
